

TRAILER UPGRADE PROGRAM

WHEN IT COMES TO PERFORMANCE AND LONGEVITY, WE'VE GOT YOUR TRAILER COVERED.

Vetted's Trailer Upgrade Program is designed to make it simple and easy to upgrade your current trailer with the latest battery and solar technology to enhance operation times

Upgrading your current trailer with new batteries and solar panels is a foolproof way to extend operational runtime and the overall life of your trailer. Without incurring the cost of a new unit, this upgrade minimizes downtime and is the ideal solution for keeping your trailers functioning at peak-performance.

BRINGING TOGETHER THE LATEST TECHNOLOGY TO ELEVATE YOUR TRAILER

Advanced Battery System

Take advantage of extended operation times and recharge capabilities with the Lithium-Ion or AGM batteries, plus all systems include Victron battery protection.

The Lithium-Ion Systems include a smart charger, a management system to preserve and prevent damage, and a 5-year system warranty and remote battery health monitoring.

Solar-Based Charging Technology

More durable and lightweight, these new panels are the ideal way to increase output and decrease energy loss, even in higher temperature weather.

Reduced electrical loss between the cell fingers provides improved power output increased efficiency and reliability in reduced lighting environments.
